

SHANAKAR M

GENERATIVE ARTIFICIAL INTELLIGENCE DEVELOPER

✉ shankarmadhiyazhagan@gmail.com 📍 linkedin.com/in/shankar-mathiyazhagan-205400251

OBJECTIVE

"To leverage my skills in Power BI, data visualization, Excel, SQL, and Python to derive meaningful insights, support data-driven decision-making, and contribute to innovative business solutions as an Analyst at Capgemini. I aim to apply my analytical mindset and technical expertise to deliver value through effective reporting, automation, and problem-solving while continuously enhancing my knowledge in business analytics and emerging technologies."

SKILLS

- Data Visualization & BI Tools: Power BI
 - Database & Querying: SQL, MySQL, Database Management
 - Programming & Analytics: Python
 - Spreadsheets & Reporting: Advanced Excel
 - Statistical & Analytical Skills: Descriptive Statistic
-

WORK EXPERIENCE

Customer Segmentation using SQL and Excel

Extracted and cleaned customer purchase data using SQL queries, then applied Excel pivot tables and charts to segment customers based on purchase frequency, average spending, and product preferences. This analysis helped identify high-value customers and supported the development of improved targeted marketing strategies.

Inventory Management Analysis

Analyzed stock and order data using SQL for trend identification and data cleaning, and designed Power BI dashboards to visualize inventory levels, supplier performance, and demand fluctuations. The insights derived from this analysis helped reduce overstocking and stockouts, leading to improved supply chain efficiency.

EDUCATION

MCA WITH GENERATIVE AI

SRM University, KTR : 2024 - 26

B.SC IN COMPUTER SCIENCE

SRI SANKARA COLLEGE,

KANCHEEPURAM : 2020 - 23

CERTIFICATION

Java Programming – GUVI (Powered by IIT-M & NASSCOM)

Completed hands-on projects and built core Java applications using OOPs and collections.
